- **Shared MEFPAK/Pilot Unit Responsibilities**
- **UTC 101**
- **Non-Pilot Unit Responsibilities**
- **Pilot Unit Guidance**

Pilot Unit Responsibilities

U.S. AIR FORCE

- **Develop and maintain standard data for each Unit Type Code (UTC) assigned**
 - **MANFOR (Manpower Force Packaging System)**
 - **Mission Capability Statement (MISCAP)**
 - **Manpower Force Element Listing (MFEL)**
 - **Allowance Standard (AS) and Logistics Detail (LOGDET)**
- **Provide one “belly-button” for non-pilots units, MEFPAK and Air Staff**
- **Survey all known non-pilot unit peers to determine validity of proposed changes**
- **Review applicable After Action Reports (AAR) and Joint Universal Lessons Learned (JULLS) for associated disconnects/solutions**

U.S. AIR FORCE

Shared MEFPAK/Pilot Unit Responsibilities

- **“Playbook” Requirements**
- **Chapters:**
 - **1: MISCAP, CONOPS and Doctrine**
 - **2: Personnel, METLs and Training Plan**
 - **3: Allowance Standard and Sustainment Funding Profile**
 - **4: UTC Mission Assessment by Pilot Unit**
 - **5: Gap Analysis and MNS/ORDs**
 - **6: Modernization Plan: FINPLAN, POM Input, 2020 Vision**

U.S. AIR FORCE

What is UTC?

- **Basic building block for determining detailed manpower and logistics support requirements.**
- **Five character alpha-numeric code (controlled by joint community)**
- **Contains**
 - **TITLE: Overview**
 - **MISCAP: Mission Capability Stated in < 20 lines**
 - **Details:**
 - **MANFOR: Manpower Forces (AFSC Detail)**
Required to meet the MISCAP
 - **LOGDET: Logistics Detail (Equipment) Required to Meet the MISCAP**

U.S. AIR FORCE

UTC Description

- **Title consists of the UTC designation, deployment indicator code (DEPID), unit level code and brief description of the force type.**
- **Mission Capability Statement (MISCAP)**
 - **Defines the mission of the UTC**
 - **Type and amount of workload the UTC is capable of performing**
 - **Type of base where the UTC may be Deployed**
 - **Other UTCs required to support the defined capability**
 - **Date the UTC was reviewed**
 - **Identifies specific capability using 20 lines or less**
